The items identified in this Information Disclosure Statement may or may not be "material" pursuant to 37 CFR §1.56 and the submission thereof by Applicant(s) shall not be construed as an admission that any such patent, publication or other information referred to therein is material or considered to be material (37 CFR §1.97(h)), or even qualifies as "prior art" under 35 USC §102 with respect to this invention unless specifically designated by Applicant(s) as such.

The filing of this Information Disclosure Statement shall not be construed to mean that no other material information, defined in 37 CFR §1.56, exists.

Attached is PTO Form 1449 listing the patents, publications and other information that may be material to the patentability of one or more claims of the subject application and copies of all such items are enclosed herewith.

With respect to the "concise explanation of the relevance" of the non-English language references, as required by 37 CFR §1.98(a)(3), Applicant's only knowledge of such relevance is by reason of the fact that the references were cited in a private search that Applicant recently had conducted in Germany with respect to the subject matter of the patents that formed the parent and grandparent of the subject application, namely, Applicant's U.S. Patents 6,278,884 and 6,681,120.

This Information Disclosure Statement is believed to be timely in that it is being submitted under 37 CFR §1.97(b)(3) before the mailing of a first Office Action on the merits, whereby no petition or fee is required. However, if counsel for Applicant is in
